MEMO TO FILE:

Re: Field Inspection
UNION CARBIDE
San Juan County, Utah
~~ACT/037/014~~

On March 1, 1977 Ron Daniels and myself inspected the Union Carbide uranium operations in the La Sal area and also south east of Piute Knoll in San Juan County.

Union Carbide is preparing Mining and Reclamation Plans for these two (2) underground operations and the guys will need to make another inspection in a month to six weeks.
